

## HUMIDITY CONTROL BASE

These specialized bases are actually trays that are designed to hold silica gel and let the air within the case circulate through the silica. This is very useful in buffering humidity levels that the art is exposed to. Acrylic cases must be used with these bases. Silica gel sold separately. Allow 2 weeks for delivery.

Item No.	Description	Price
HCB-6	1.5"h x 6.5"w x 6.5"d, holds 1.25 lbs. Silica black	\$60.00 ea.
HCB-8	1.5"h x 8.5"w x 8.5"d, holds 2.75 lbs. Silica black	\$65.00 ea.
HCB-10	1.5"h x 10.5"w x 10.5"d, holds 4.5 lbs. Silica black	\$70.00 ea.
HCB-12	1.5"h x 12.5"w x 12.5"d, holds 8.75 lbs. Silica black	\$75.00 ea.

## DRICAN

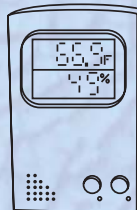

Reusable desiccating canisters protect all types of articles from deterioration caused by moisture or high humidity. DriCan is a small perforated canister containing indicating silica gel. One DriCan will maintain about a three cubic foot area of sealed space. The desiccant content has a reversible action. Once it has absorbed all the moisture it can hold, (indicated by a color change from blue to pink) it can be regenerated easily in the microwave or conventional oven. Heat DriCan in a vented conventional oven at 300°F for three hours or in a microwave on high for 12 minutes (using a 900 watt microwave). Time may vary depending on microwave. Allow sufficient cooling before removing DriCan from an oven to reduce risk of personal injury. Damage to desiccant may occur in microwaves over 900 watts or from temperatures above 325°F. DriCan has no harmful effects on material with which it comes in contact. The contents are chemically inert, non-corrosive, non-toxic, and odorless.

Item No.	Description	Price
DCP-01	.5"h x 4"w x 2"d amber	\$11.00 ea.

## DIGITAL HYDRO THERMOMETER

Wall or Desk Mount. Reads temperature & humidity, min-max memory. Temperature range: 14 to 122°F (-10 to 50°C); humidity range: 10 to 95% RH. Temperature accuracy: ±1.8°F (±1°C); humidity accuracy: ±5% RH. Power source: 1 "AAA" battery (included).

Item No.	Description	Price
DTH700	4.25"h x 2.5"w x .5"d white	\$29.00 ea.

"hi, I have just visited your website at [www.artdisplay.com](http://www.artdisplay.com), and I really enjoyed it. You have a GREAT website. Congratulations !!!!!"

## DEHUMIDIFIED SILICA GEL

Dehumidified silica gel. This loose style silica is the same as the contents of our DriCan desiccating canister, but in bulk form. Blue indicating color lets you know by turning pink when it is time to regenerate.

Item No.	Description	Price
DSG-01	blue per lb	\$12.00 ea.

## HUMIDITY GAUGE CARD

Easy to read humidity indicator cards tell at a glance if the moisture within a room or display case is at an acceptable level.

Item No.	Description	Price
HG-01	white	\$5.00 ea.

## CONDITIONED SILICA GEL

In certain applications you will need silica conditioned to a certain relative humidity to help acclimate an object such as wood or ivory and keep it from splitting or cracking. This special formulation silica comes conditioned to your specification or 40% R.H. in stock. (Note: 5lb. minimum order).

Item No.	Description	Price
CSG-01	per lb, 5 lb. minimum	\$18.00 ea.
